Professional Experience

training internship

Ghazaouet Port Authority - Tlemcen

03/2018 - 03/2018

Ghazaouet - Tlemcen, Algeria

Programmer and Analyzer

Ghazaouet Port Authority - Tlemcen

07/2018 - 11/2018

Ghazaouet - Tlemcen, Algeria

- I was responsible for developing a custom website for the Port of Ghazaouet, using Laravel and MySQL as the primary technologies.
- I collaborated with the port's management team to identify their requirements and devised and implemented a tailored solution that addressed their specific business needs.
- As part of the website development process, I employed various search engine optimization (SEO) techniques to enhance the website's online visibility and improve its ranking on search engine results pages

Full-stack Developer
EmploiPartner

02/2021 - 05/2021
Kouba - Alger, Algeria

- I collaborated with a team of developers and product owners to develop and maintain both the website and mobile application owned by the company (**Emploipartner** ).

Product Owner
SehlaTech

06/2021 - 04/2022 | Tlemcen, Algeria

My responsibilities involved overseeing cross-functional team in the development and delivery of various projects, most notably the **OPU**  (**Office des Publications Universitaires**) platform. Collaborating closely with stakeholders, developers, and designers, I ensured successful project achievement and alignment with business goals, resulting in the delivery of a high-quality end product.

Some of my key responsibilities included:

- Defining and prioritizing project requirements based on stakeholder feedback and business needs.
- Collaborating with designers and developers to create user stories, wireframes, and prototypes.
- Communicating project progress and updates to key stakeholders, including senior leadership.
- Ensuring that projects were delivered on time, within budget, and to a high level of quality.

Manager & Full-stack Developer
Lemsa Innovation

04/2022 - 05/2023 | Tlemcen, Algeria

- **Just wanted to inform that Lemsa Innovation and Sehlotech are, in fact, a single company.**

During my tenure, I was responsible for contributing to various projects, which provided me with extensive knowledge. As a Fullstack Developer, I had the opportunity to work on a diverse range of projects, including **Coordate web** , **Coordate mobile app** , **And-Arise** , **Primrecrut** , **Paymeforms** .

My role required me to utilize both front-end and back-end technologies to develop robust, efficient, and user-friendly web applications. I collaborated with the team and product owner to refine client ideas, design, implement, and maintain complex systems, ensuring that the applications met the requirements of our clients and end-users.

Product Owner & Full-stack Developer
DataMasterDZ

06/2023 - present | Tlemcen, Algeria

As a Product Owner and Full-Stack Developer, I orchestrate the entire project lifecycle, from conceptualization to delivery. I'm responsible for curating and prioritizing the product backlog, sprint planning, and ensuring seamless adherence to Agile methodologies. Simultaneously, I actively engage in development tasks as a Full-Stack Developer.

Co-Founder (Freelance)
JasminTech

present | Tlemcen, Algeria

In my capacity as a co-founder at **JasminTECH** , I assumed a crucial role in founding and overseeing an IT services company specializing in providing comprehensive IT solutions.
